Overview

Durban

- Vessel waiting times, delays and backlogs in Durban terminals continue.
- Durban backlog grows after system upgrade.

Port Elizabeth

- Weather reported as clear for the week ahead with wind gusts expected on Saturday which may delay operations of the port.

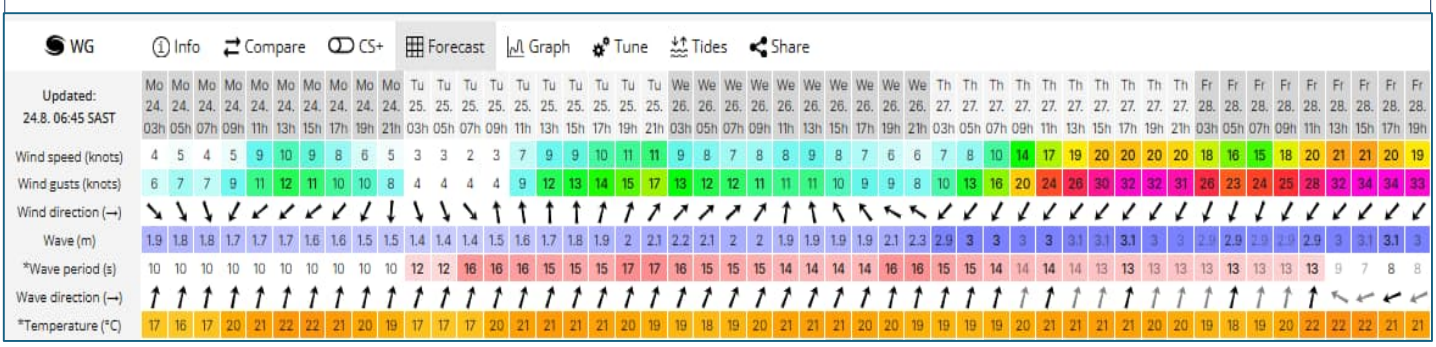

Cape Town

- High reefer cargo volumes impacting export loadings with carriers “rolling” both DG and Dry containers as reefer containers are prioritised.
- Hazardous bookings may be delayed during this period. This is expected to continue throughout August into September.

Weather Forecast

Durban

- Weather delays forecasted Thursday & Friday
